

i-Vu® Building Automation System **USB-W** USB Wi-Fi Service Adapter Kit

TruVu™

The USB-W Wi-Fi wireless service adapter is a tool for technicians that is custom programmed to interact with the USB service port on TruVu™ controllers using Field Assistant or i-Vu Pro. The USB-W can also be used to connect with the controller via the Equipment Touch app (version 1.4.8 or later). This high-speed service port connection expands flexibility for servicing and setting up Carrier TruVu controllers.

Kit Includes

1. Linksys USB to Wi-Fi wireless service adapter
2. USB Extension Cable (3ft.)
3. Male USB-A to Male USB-A Service Cable (3ft.)

i-Vu or Field Assistant

Equipment Touch App
