

Technical Data Sheet

Viper Heavy Duty

Part # RT390G, One US Gallon (3.78L)

Overview: Viper Heavy Duty is a concentrated version of our popular Viper Aerosol Degreaser. Use Viper HD as an alternative to hazardous Acid or Alkaline cleaners for unbelievable cleaning and degreasing performance. Viper HD can be used on condenser or evaporator coils. Safe for all metals and OEM approved for use on aluminum micro-channel coils.

Application: Viper HD diluted 5:1 will remove more grease and soil than most cleaners can accomplish at full strength. Apply using any conventional spray equipment or use through our Viper Foam Gun. Allow solution to remain for at least 10-15 minutes before rinsing. Evaporator coils do not require a water rinse. If water is not available, Condenser coils require no rinsing when Viper HD is diluted to 20:1 or greater.

Chemical Description: Proprietary aqueous detergent/degreasing compound. Biodegradable and EPA Compliant. This product does not contain any VOC's, HAP or TAC. Please refer to SDS for more information.

Properties: Viper HD is a non-toxic, non-flammable and non-odorous product. Suitable for use on indoor or outdoor coils, or use as a multipurpose cleaning and degreasing compound.

Certifications: NSF A1 registration number 120080 for use in food establishments. Kosher certified by OK Kosher.

Storage and Handling: Use standard precautionary measures when handling any chemical. Keep container closed and store away from heat or direct sunlight. Use in well ventilated areas. Rinse any affect areas with water. Soak up spills with adsorbent material and dispose according to Federal or State laws. KEEP OUT OF REACH OF CHILDREN.
